In the case of a large number of units to be procured, then the buyer may opt for bidding and accordingly stipulate conditions regarding installation, inspection by consignees/inspection agency. Consignees who receive the supplies should be vigilant and should complete checking to ensure that there is no scope for the supply of refurbished products. At the time of receiving supplies, the consignee may adhere to the following to ensure that any discrepancies in supplies can be flagged, taken into account, and reflected while generating the CRAC:</p> <p>(i) Packing should be checked properly</p> <p>(ii) A warranty certificate from the OEM should be insisted upon and checked.</p> <p>(iii) Instruction manuals and the OS installed should be checked.</p> <p>(iv) The machine serial number should also be checked through settings and can be verified from the OEM website. The above points are for guidance, and the buyer/consignee may take steps considered suitable by them for checking at the consignee end before acceptance of systems.</p> <p>(v) An escalation matrix for customer grievance redressal shall be insisted upon by the buyer from the seller at the time of delivery.</p> |
